Other Considerations

S.N.	Particulars	Result
1	Nadi-Pada Koota	Although Nadi Koota Agreement is not present in the prospective couples' charts, still Nadi-Pada Agreement is present in their charts. As such absence of Nadi-Koota Agreement can be ignored.
2	Mahendra Koota	Mahendra Koota Agreement is not present in the prospective couples' charts.
3	Stree Deergha Koota	Stree-Deergha Koota Agreement is not present in the prospective couples' charts. But since Rashi-Koota and Graha-Maitri Koota Agreements are present, the absence of Stree-Deergha Koota can be ignored.
4	Rajju Koota	Rajju Koota Agreement is not present in the prospective couples' charts. Unless modifying influences are present in their charts, the wife's health may become delicate.
5	Vedha Koota	Since the boy's Moon's nakshatra and the girl's Moon's nakshatra are not in mutual vedha relationship, they will understand each other perfectly well and temperamental clashes or emotional outbursts are far less likely to happen.
6	Common Janma Rashi	The boy's Moon and the girl's Moon fall in the same Janma Rashi and same Janma nakshatra. See the conclusion under common Janma Nakshatra.
7	Common Janma Nakshatra	The boy's Moon and the girl's Moon fall in the same Janma nakshatra, but the Moon's position falls in a nakshatra which belongs to an auspicious group; hence, marriage can be approved if some other unfavorable influences are not present in the charts.
8	Common Janma Nakshatra-Pada	Although the boy's and the girl's Moon fall in the same Nakshatra, they fall in different nakshatra-Padas. As such, marriage can be approved.

Checking for Kuja-Dosha (Manglik Blemish)

In the boy's chart, Mars is situated in the sign occupied by Venus. As per North-Indian* system, this constitutes Kuja-Dosha (or Mangalik blemish); we shall check in following whether any condition for the cancellation of this blemish is also present in the chart. However, as per South-Indian* system, Mars placed in the sign occupied by Venus does not constitute Kuja-Dosha (or Mangalik blemish).

Cancellation for Kuja-Dosha (Manglik Blemish)

In the chart of the boy, Mars is situated in a 'chara' (movable) sign. Some people opine that it is an exceptional case, where it is not even necessary to check for the apparent presence of Kuja-Dosha. The boy is free from Martian blemish -- he is not a 'Mangalee'. (However, this opinion does not enjoy the support of majority.)

Checking for Birth in 4 'Harmful Nakshatra-Charans

Out of 27 Nakshatras, only 4 Nakshatras (Ashlesha, Vishakha, Jyeshtha, and Moola) has been branded as 'destructive' - as every one of these Nakshatras is supposed to exert someunfavorable influences, and affect the health and wellbeing of a certain relative of the marriage-partner. Such effect is more feared if the Girl's Moon is situated in any of these 4 Nakshatras; if the Boy's Moon is situated in any of these 4 Nakshatras, then also similar effect is attributed. However, it should be noted that adverse results are attributed to only one particular 'charan' (quarter) of every one of these 4 Nakshatras - and not to the remaining 3 charans (quarters). The 1st quarter of Ashlesha, the 1st quarter of Jyeshtha, the 1st quarter of Moola, and the 4th quarter of Vishakha are believed to be harmful - whereas the remaining 3 quarters of every one of these 4 nakshatras are not harmful (at least in this respect).

Vihaga, Tatwa, Vadha-Vainashika & Sama-Gotra Dosh

As per Vihaga-classification of the Moon's nakshatra, the Boy belongs to the category of Vayasa; the Moon's nakshatra of the Girl also belongs to the same category. This is a favorable combination - as it has been said that the couple belonging to the same Vihaga-category will have much of similarities in respect of their likes/ dislikes, aspirations, etc. As such, the agreement on this count is present in the charts of this 'pair'. ... (This agreement has been mentioned as Vihaga-Anukoolya in ancient classic 'Jatakadesh Marga' ofSomayaji).

As per Tatwa-classification of the Moon's nakshatra, the Boy belongs to the category of Agni; the Moon's nakshatra of the Girl also belongs to the same category. This is a favorablecombination - as it has been said that the couple belonging to the same Tatwa-category will have much of similarities in respect of their intrinsic nature. As such, the agreement on this count is present in the charts of this 'pair'. ... (This agreement has been mentioned as Vihaga-Anukoolya in ancient classic 'Jatakadesh Marga' of Somayaji).

While comparing the positions of Moon in the horoscopes of the Boy and Girl, it is found that neither the Girl's Nakshatra (of Moon) is the 22nd Nakshatra as counted from the Boy's Nakshatra of Moon, nor the Boy's Nakshatra (of Moon) is the 22nd Nakshatra as counted from the Girl's Nakshatra of Moon. As such the unfavorable combination of 'Vadha-Vainashika' Dosh does not exist between the two charts. So, no objection could be raised on this count if this pair is matched together.

While comparing the two charts, it is seen that - as per 28 Nakshatra-system (including Abhijit) - the Boy's Nakshatra (of Moon) falls in the category of Athri Nakshatra-Gotra. The Girl's Nakshatra-Gotra also falls in the same category. As both of these are found to belong to the very same category, it is believed to be inauspicious. This match should preferably beavoided - otherwise, it appears possible that the intellectual level and the spiritual inclination of the offspring may not be of a high order.

The 4 Nakshatras - Mrigashira (# 5), Magha (# 10), Swati (# 15), and Anuradha (# 17) - enjoy the status of special (great) constellations. If the Nakshatra of Moon of either the Boyor the Girl coincides with any of these Nakshatras, then the match could be declared as passable - even if the Total Score of Koota-Agreement is found to be less than optimum. This is as per Kala Vidhana - a treatise on Muhurtha (or Electional Astrology).

While comparing the two charts, it is observed the none of the Nakshatras of Moon in the two charts (of the Boy, and also of the Girl) coincide with any of the 4 special constellations(Maha-Nakshatras) - which are Mrigashira, Magha, Swati, and Anuradha. As such, the question of any special consideration on this count does not arise in this

Checking for Marriage-Compatibility- As par Ashta Koota Agreement

Checking for the presence of Varna-Koota Agreement -

The boy and the girl both belong to the Vaishya Varna. This is highly favourable and marriage-compatibility on this count is fully present. On this count, contribution to the Koota-agreement score will be = 1 point (Out of 1).

Checking for the presence of Vashya-Koota Agreement -

The boy's Vashya belongs to the Dwipada group, while the girl's Vashya also belongs to the same group. This is highly favourable. As such, marriage-compatibility on this count is present. On this count, contribution to the Koota-agreement score will be = 2 points (Out of 2).

Checking for the presence of Tara-Koota Agreement -

By counting nakshatras from the girl's janma-nakshatra to the boy's janma-nakshatra, we obtain the figure 1; upon dividing by 9, it yields a remainder 1, which is not favourable. By counting nakshatras from the boy's janma-nakshatra to the girl's janma-nakshatra, we obtain the figure 1; upon dividing by 9, it yields a remainder 1, which is not favourable. As such, marriage-compatibility on account of Dina-Koota is partially present in the chart. On this count, contribution to the Koota-agreement score will be = 1.5 points (Out of 3).

Checking for the presence of Yoni-Koota Agreement -

In the two charts (of the boy and the girl), although the yoni becomes the same, both of them belong to be 'female' category -- which however is not a favourable indication. Although marriage is to be considered as passable, yet the compatibility may not be so good on this account, as this particular koota signifies the inner nature -- according to urges and affinities, which widely vary from person to person.

The boy's nakshatra falls in the category of Buffalo(F), while the girl's nakshatra falls in the category of Buffalo(F). As per Yoni-koota agreement, for this combination, a contributory score of 4 is obtained on this account.

Checking for the presence of Graha-Maitri Koota Agreement -

The boy's janma-rashi adhipati is Mercury and the girl's janma-rashi adhipati is also the very same planet.
